

PROTECT YOUR CHILDREN PROTECT YOUR FAMILIES

COMPREHENSIVE SEXUALITY EDUCATION IS SEXUALIZING YOUR CHILDREN & THREATENING THE FAMILIES OF YOUR NATION

Factual Information on How UN Agencies are Working to Destroy
Your Children's Innocence and Your Culture

INCLUDED: *TOOLS TO HELP YOU STOP THIS ONSLAUGHT*

FAMILY WATCH INTERNATIONAL

INTRODUCTION

This packet is intended to provide UN delegates and heads of UN Member States with factual information regarding comprehensive sexuality education (CSE), the number one tool of the global sexual rights movement. CSE seeks to change society as we know it by sexualizing children, redefining the family, and changing societal norms regarding sex and gender.

The enclosed information is designed to show that various UN entities and NGOs - organizations that most governments trust and even look to for guidance and technical support - are actually the perpetrators of this dangerous sexual rights agenda that is spread primarily through the vehicle of comprehensive sexuality education programs in schools around the world. Leading on the list of UN entities pushing this agenda are the World Health Organization, UNESCO, UNAIDS, UNFPA and, especially, International Planned Parenthood Federation. (see **InvestigateIPPF.org**)

ABOUT FAMILY WATCH INTERNATIONAL

Founded in 1999, Family Watch International (FWI) is a nonprofit, international organization with members and supporters in over 170 countries. FWI is not affiliated with any religious group or political party and is a tax-exempt, tax-deductible charity under Section 501(c)(3) of the U.S. Internal Revenue Code. Family Watch works at the United Nations and in countries around the world educating the public and policymakers regarding the central role of the family and advocating for women, children and families at the international, national, and local level. FWI also provides family-based humanitarian aid to orphans and vulnerable children and works to protect the health and innocence of children through exposing the harms of comprehensive sexuality education programs.

For more background on how comprehensive sex education is harming children please visit: **WarOnChildren.org** and watch the informative documentary.

WHAT IS COMPREHENSIVE SEXUALITY EDUCATION ... or CSE?

To understand what CSE is requires first understanding the definition of “**sexuality.**”
Applying the **World Health Organization definition of sexuality**, comprehensive sexuality education is to include information about:

Sexual Orientation

Desires Pleasure

Attitudes Eroticism

Behaviours Fantasies

Gender Identities

PROMISCUITY, NOT PUBLIC HEALTH

Rather than educating young people about healthy behavior, the **World Health Organization (WHO)** promotes CSE programs that indoctrinate youth with the idea that **sexual promiscuity is normal and desirable for teens.**

*Standards for Sexuality
Education in Europe*
World Health Organization
(published in 2010)

Excerpts from the manual

FOR CHILDREN AGES 0-4 YEARS:

- "Give information about enjoyment and **pleasure** when touching one's body, early childhood **masterbation**"
- "Give the **right to explore gender identities** ..."

FOR CHILDREN AGES 4 - 6 YEARS:

- Same-sex relationships**
- Develop respect for **different norms regarding sexuality**

MOST DISTURBING

WHO suggests youth look to International Planned Parenthood Federation (IPPF) to learn about their "sexual rights."

FOR CHILDREN AGES 9-12 YEARS:

- "Differences between **gender identity and biological sex**"
- "Sexual rights as defined by the International Planned Parenthood Federation (IPPF)"**

FOR CHILDREN AGES 12-15 YEARS:

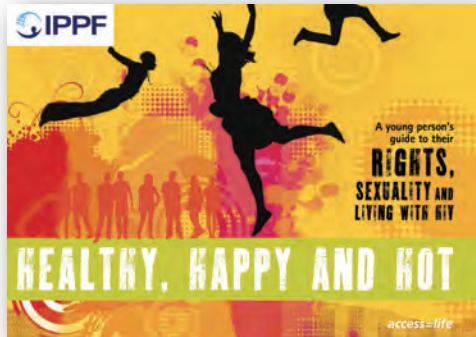

- "Give information about **pleasure, masturbation, orgasm**"
- "Gender identity and sexual orientation, including **coming-out/homosexuality**"

FOR AGES 15 AND UP:

- "Help teenagers to develop a **change from possible negative feelings, disgust and hatred towards homosexuality to acceptance and celebration** of sexual differences"
- "...violations of sexual rights, **right to abortion**"

PROMOTING SEXUAL WRONGS AS SEXUAL RIGHTS

International Planned Parenthood—the largest provider of CSE worldwide—teaches youth they have a **“right” to sexual pleasure—at any cost.**

Healthy, Happy, and Hot
International Planned
Parenthood Federation
(published in 2010)

Excerpts from the manual

For example, IPPF's **“Healthy, Happy, and Hot”** publication tells youth who are infected with HIV that their **“sexual rights”** include a **“right to sexual pleasure.”**

It also teaches about **anal, sex, oral sex, rough sex and soft sex**, that “some people have sex when they have been drinking alcohol or using drugs. This is your choice.

Alarminglly, **it even tells youth they don't have to tell their sexual partners they are infected with HIV.**

IPPF's various websites and publications claim sexual rights for children relating to:

contraception, abortion, sexual expression (cross-dressing, nudity), LGBT rights, pornography (sale and use of), sexual relations, age of consent, sexual orientation, gender identity (identity papers, hormone therapy, sex change operations, etc.), sodomy, prostitution, use of public bathroom and shower facilities, adoption and fertility services

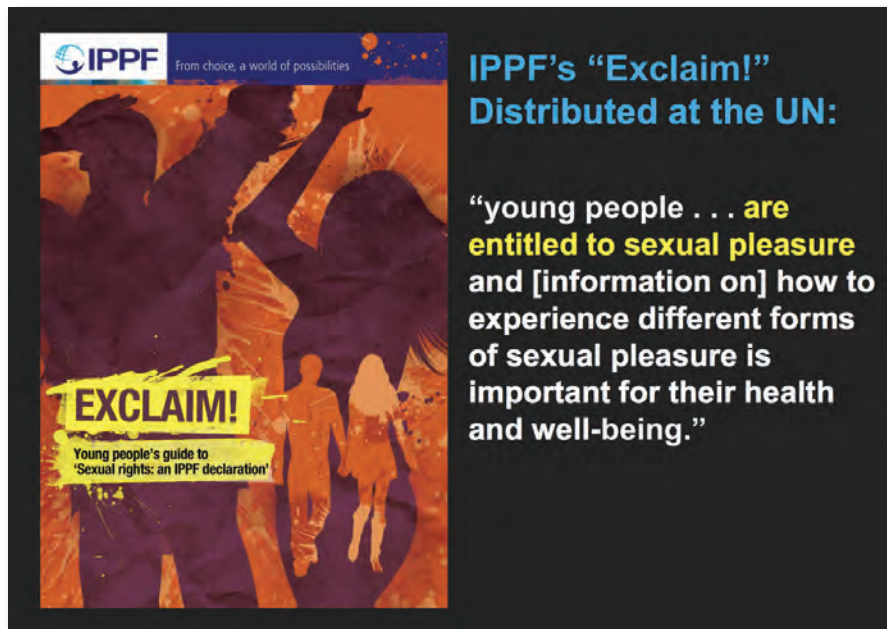

IPPF also stresses that children have a **right to sexual education.**

This, of course, comes from the largest provider of sex education programs and curriculum in the world.

IPPF IS HOOKING KIDS ON SEX

International Planned Parenthood Federation serves as the ideological driver and the **major provider for sexuality education programs around the world.**

Could it be that the IPPF plan is to push sex education and experimentation as a right for youth in order to groom them and **get them hooked, thus creating future clients for their other services?**

EXCLAIM!

International Planned Parenthood Federation
(published in 2011)

Excerpts from the manual

IPPF claims that: "Young people ... **have sexual needs, desires, fantasies** and dreams. It is important for all young people around the world to be able to **explore, experience and express their sexualities** in healthy, positive, pleasurable and safe ways. This can only happen when **young people's sexual rights are guaranteed.**"

IPPF believes that children have a **right to "different forms of sexual pleasure" on a regular basis and that this right should be "guaranteed."**

HARMING THEIR INNOCENCE

CSE programs—often created by International Planned Parenthood—**use explicit language and graphic content as well as false claims to promote the sexual rights agenda, push abortion and abolish parental rights** so they can advance their agenda with children.

It's All One has seven key features ... based on the strategies and priorities established by a number of global health and education agencies, including the **United Nations General Assembly, UNAIDS, the World Health Organization, UNESCO, and the World Association for Sexual Health.**

It's All One was developed by an international group of experts to ensure that its perspective is relevant for educating young people globally — from Africa to the Pacific, from Asia to the Americas, from Europe to the Arab World.

Excerpts from the manual

"It's All One" assaults parental rights, calling upon governments to:

Remove "barriers to sexuality education such as parental consent"

Remove "barriers to accessing safe abortion services, such as third-party authorization requirements"

Remove "barriers in accessing comprehensive sexual and reproductive health services".

IPPF & THEIR PARTNERS USE CSE TO SEXUALIZE YOUTH

International Planned Parenthood Federation (IPPF) is the largest provider of CSE in the world. IPPF and their partners, UNESCO, UNICEF, UNFPA, WHO, and UNDP use CSE to sexualize youth.

*Putting Sexuality Back Into
Comprehensive Sexuality Education*
International Planned
Parenthood Federation
(Published 2016)

IPPF TEACHES

“All conversations around pleasure must emphasize the diversity forms of pleasure.”

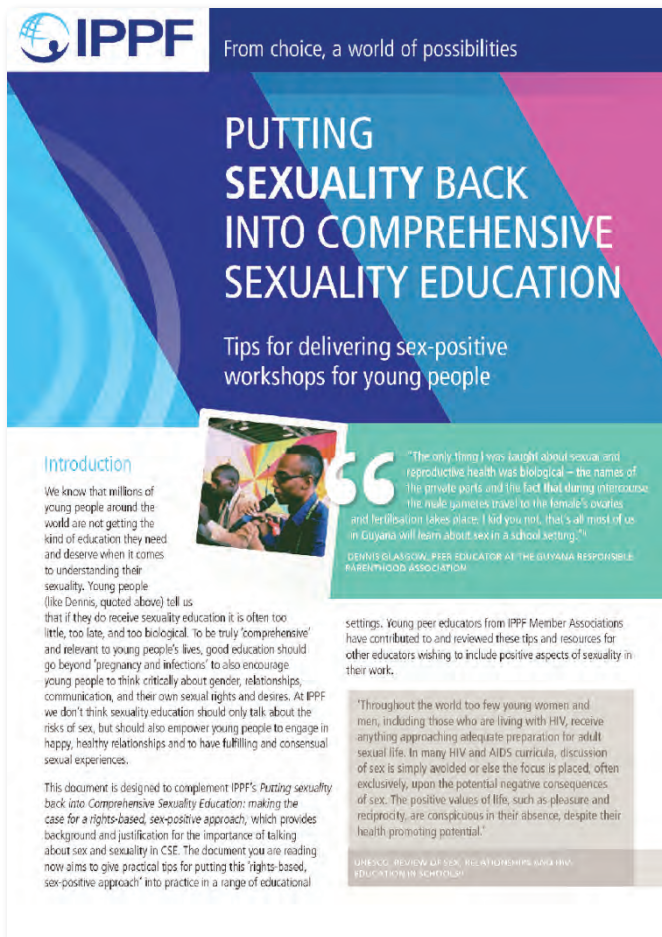

“Communicating around sexual preferences and vocalizing what gives one sensations of pleasure is an empowering act in itself for many young people.”

“Sex-positive CSE can play a crucial role in acknowledging a greater diversity of sexual practices, and in challenging heteronormativity.”

“The Sustainable Development Goals (SDGs) provide for access to sexual and reproductive health information and education, and investment in building knowledge of human rights, gender equality and global citizen-ship— all core elements of CSE programming.”

NEGATIVE EFFECTS OF THE SEX-POSITIVE APPROACH

IPPF's sex-positive, rights-based approach to sex education fails to warn youth of the many physical and mental health consequences associated with early teen sex.

Tips for Delivering Sex-Positive Workshops
International Planned Parenthood Federation
(Published 2016)

Excerpts from the manual

"... discuss pleasure responses, not just reproductive capacity"

"Sex-positive approaches strive to achieve ideal experiences, rather than solely working to prevent negative experiences."

"IPPF includes 'pleasure' as an essential component of CSE, but this can be a tricky subject to address in conservative or religious settings."

"Speaking openly about sexual issues with young people can be difficult in many settings, and **you may face resistance from parents or others in the community."**

"Try to find allies for the work that you are doing. Gather evidence which supports your approach..."

NEW GUIDANCE ON SEXUALITY EDUCATION

International Technical Guidance on Sexuality Education
UNESCO (published 2018)

UN AGENCIES UNITE IN AN ASSAULT ON CHILDREN

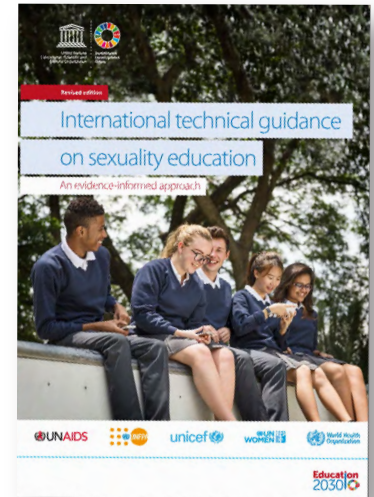

In the newly published UNESCO "International Guidance on Sexuality Education," UN agencies unite in the all-out effort to take away children's innocence and destroy our cultures as we know them.

UNESCO GUIDANCE BRINGS CSE OUT OF THE CLOSET

Guideline Excerpts

International
Technical Guidance on
Sexuality Education
UNESCO
(published 2018)

“... abstinence means choosing not to have sex or deciding when to start having sex and with whom ...

“[Y]oung people want and need sexuality and sexual health information as early and comprehensively as possible ...”

“[S]upport the right for everyone ... to express their sexual feelings”

“CSE contributes to gender equality by building awareness of the centrality and diversity of gender in people’s lives.”

“CSE promotes the right to choose when and with whom a person will have any form of intimate or sexual relationship ...” (pg. 18, Other key considerations)

“[N]on-penetrative sexual behaviours are without risk ... and can be pleasurable”

“CSE contributes to gender equality by building awareness of the centrality and diversity of gender in people’s lives.”

“all people should be able to love who they want”

“... there is diversity in the way young people manage their sexual expression at various ages.”

“Sexuality” encompasses “gender identity; sexual orientation; sexual intimacy; pleasure ...”
