Sexual Education Opt-in Laws

Utah

Utah Code 53G-10-402 Required parental consent for sex education instruction

Summary: A school must obtain written consent from parents before providing sex education to students. If a parent chooses not to have their child participate in sex education, the parent then takes responsibility for the child's instruction in cooperation with the teacher or school, and the school shall either waive the requirement or provide a reasonable alternative to the requirement. There is no penalization if parents opt their student out of sex education.

=====
7.20.18 — REPUBLICAN NATIONAL COMMITTEE

RESOLUTION TO PROTECT STUDENTS FROM EXPOSURE TO POTENTIALLY UNSUITABLE CONTENT BY SUPPORTING A PARENT'S RIGHT TO GRANT PRIOR WRITTEN CONSENT FOR SEX EDUCATION

WHEREAS, parents are a child's first and foremost educators, and have primary responsibility for the education of their children. Parents have a right to direct their children's education, care, and upbringing; (1)

WHEREAS, education is much more than schooling. Education is the whole range of activities by which families and communities transmit to a younger generation, not just knowledge and skills, but ethical and behavioral norms and traditions. It is the handing over of a cultural identity; (2)

WHEREAS, American education has, for the last several decades, been the focus of constant controversy, as centralizing forces from outside the family and community have sought to remake education in order to remake America. This has done immense damage; (3)

WHEREAS, school administrators routinely ask parents for their prior written permission for students to participate in various school-related instruction and activities, including, but not limited to: field trips, sports, and distribution of medicine;

WHEREAS, parents and their students should be afforded the same respect with regard to the increasingly sensitive and controversial nature of human sexuality instruction;

WHEREAS, much of the content in human sexuality instruction centers on contentious and sensitive issues, including but not limited to: abortion, birth control, sexual activity, sexual orientation, transgenderism, and/or gender identity;

WHEREAS, human sexuality instruction frequently places the wishes and concerns of the parents and/or guardians at odds with those of the school district; and

WHEREAS, the wishes and concerns of the parents and/or guardians are preeminent to those of the School District and should be acknowledged by simply affording parents and/or guardians the right to grant permission for such instruction; therefore

RESOLVED, that public schools must disclose the content contained within human sexuality instruction to the parents and/or guardians of all unemancipated students and shall only enroll those students whose parents and/or guardians provide prior written permission to opt their student into human sexuality instruction;

RESOLVED, that the default shall be that no human sexuality instruction shall be provided to any student not yet emancipated without prior written consent from their parent and/or guardian, making an opt-out default an insufficient protection for either the safety of the student or the rights of the parent;

RESOLVED, that all state legislatures are encouraged to enact legislation that implements these notices and safeguards to protect students from exposure to potentially inappropriate and salacious content and to acknowledge the right of the parents and/or guardians to direct their children's education, care, and upbringing, including their right to protect them from exposure to content they find unsuitable.
